

Three of Yerecic's 90 employees were deployed to the Pennsylvania Army National Guard from September 2008 to September 2009. While proudly serving their country overseas, Yerecic provided these guardsmen with international cell phones and laptops capable of video chat and internet access. Yerecic also continued to pay their salaries while they were deployed. The three guardsmen also received numerous letters, cards and care packages from fellow employees to keep their spirits high while overseas.

Madam Speaker, Yerecic Label knows what it truly means to support our troops. Through their generosity and kindness, they have provided our Guard and Reserve members and their families with the reassurance they need to make it through this tumultuous time of war. The company's president, Art Yerecic, even gives his personal phone number to families of deployed employees, should they need any additional support.

In the 15 years that the Employer Support Freedom Award has existed, only 130 companies nationwide have been presented with the award. Madam Speaker, I would like to once again honor Yerecic Label for receiving this prestigious award and for supporting our men and women serving abroad.

HOMELAND SECURITY SCIENCE AND TECHNOLOGY AUTHORIZATION ACT OF 2010

SPEECH OF

HON. LAURA RICHARDSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 20, 2010

Ms. RICHARDSON. Mr. Speaker, I rise today in support of H.R. 4842, the Homeland Security Science and Technology Authorization Act of 2010, which authorizes important management functions and programs within the Department of Homeland Security Science & Technology (S&T) Directorate.

I would like to acknowledge Speaker PELOSI and Majority Leader HOYER for their leadership in bringing this important resolution to the floor. I would also like to thank my colleagues Chairman THOMPSON and Congresswoman CLARKE, who authored this legislation, which represents a milestone for the S&T Directorate and the Homeland Security Committee. It is the first authorization bill for S&T since the Department was created in 2002.

As Chair of the Homeland Security Subcommittee on Emergency Communications, Preparedness, and Response, I have been concerned about these issues. Through the Committee's years of oversight work, I have a great appreciation for not only S&T's strengths and successes, but also its weaknesses, which include a lack of accessibility, transparency, and responsiveness.

H.R. 4842 addresses those weaknesses and acknowledges the importance of science and technology research, development, testing, and evaluation in ensuring the safety and security of the American people and our nation. This bill ensures that the Science and Technology Directorate has the right tools available to be successful, such as delivering products into the hands of our first responders, law enforcement officials, or critical infrastructure owners to help them achieve their

mission and make America more secure. This legislation also authorizes critical management functions and programs within S&T, including the Securing the Cities program.

In conclusion, Mr. Speaker, I support this legislation because we need the very best science and technology available to defend the threats against our homeland. I am pleased that Congress and the Committee on Homeland Security are taking action to promote these improvements and adequately fund the areas of government responsible for science and technology research.

Mr. Speaker, I urge my colleagues to join me in supporting H.R. 4842.

TRIBUTE TO LONNIE ANDERSON

HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, July 26, 2010

Mr. ROGERS of Kentucky. Madam Speaker, I rise today to pay tribute to Lonnie Anderson, whose passion for youth in Southern and Eastern Kentucky has forever impacted the education and success of generations of families in Whitley County, Kentucky.

Lonnie Anderson retired as the longest, consecutive-term superintendent to serve the Whitley County School District. Since 1991, Lonnie has been evaluating needs and developing solutions for the students, parents and staff members in the Whitley County School District. The programs he implemented were dedicated to much more than merely improving test scores. Lonnie established programs to improve reading not only for his students, but for their parents. He developed a jobs program geared specifically to students at risk of dropping out of school. He also opened a day care center for teen parents attending the middle and high schools. Lonnie understands that our students face much different challenges in our world today and has made a goal of supplying each one with the tools they need to be successful in life. The results of his efforts were highlighted when the Whitley County School District ranked as the highest performing, highest poverty school in Kentucky in 1997.

Lonnie Anderson also teaches his students to be civically responsible by his own actions. Lonnie lends his wisdom across the region through his service on numerous boards and community organizations including the Operation UNITE Board of Directors and rallying students to participate in PRIDE environmental cleanups. Outside of education, Lonnie is also a savvy business owner. In fact, it is his entrepreneurial skills that turned around the Whitley County School District's general fund from bankruptcy at \$300,000 in 1990 to \$4.64 million in 1999, moving the entire district among the top performing school systems in the state. The phenomenal impact he has made on the school district and economy of Whitley County will resound for decades.

Madam Speaker, I ask my colleagues to join me in honoring Lonnie Anderson for dedicating a lifetime of service to the youth and families of Eastern Kentucky.

CONGRATULATING THE MEN'S BASKETBALL TEAM OF NORTHWESTERN COLLEGE IN ROSEVILLE, MN ON THEIR NATIONAL CHAMPIONSHIP TITLE

HON. BETTY MCCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 26, 2010

Ms. MCCOLLUM. Madam Speaker, it is my honor to congratulate the men's basketball team of Northwestern College in Roseville, Minnesota. The Eagles are the 2010 National Christian Collegiate Athletic Association (NCCAA) Division I Men's Basketball National Tournament champions.

The players and coaches of the Northwestern men's basketball team worked diligently throughout the season—ultimately finishing with a 22–7 record, and winning 18 of their last 19 games. They earned this championship title through much hard work and determination. This is their first NCCAA Division I Men's Basketball Championship, and they have made their fans, their university, and the state of Minnesota proud.

The odds were against the Eagles from the start of the tournament. They were ranked number six out of eight teams, and Northwestern was one of only two Division III universities competing for the title. The team members and coaches were aware of their apparent disadvantage, but they worked their hardest to prove their skeptics wrong.

The championship game was a close competition between Northwestern and their opponent, King College, which was ranked number one in the tournament. Both teams played admirably, but the Eagles' stellar offense and solid defense propelled them to victory over King College. The dedication and strength of character this team has shown are an inspiration to persevere even in the face of defeat.

Madam Speaker, please join me in honoring the players and coaches of the men's basketball team of Northwestern College, whose talent and perseverance led them to the 2010 NCCAA Division I championship.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Monday, July 26, 2010

Mr. COFFMAN of Colorado. Madam Speaker, today our national debt is \$13,248,524,997,009.91.

On January 6th, 2009, the start of the 111th Congress, the national debt was \$10,638,425,746,293.80.

This means the national debt has increased by \$2,610,099,250,716.11 so far this Congress.

This debt and its interest payments we are passing to our children and all future Americans.
